Penetrates Rust and Corrosion

*** PRO STRAW DELIVERY SYSTEM:**

With "Pro Straw Delivery System - In the down position, the conical fan spray can be used for coating large surface areas. Flip the clear feed tube up to direct a flood of product on hard to reach areas. The adjustment knob on the back of the PRO STRAW - Control Flow Technology can be positioned to allow full flow, reduced flow or no flow...That's up to you.

**** COMES WITH AN EMPTY SPRAY CAN.**

DESCRIPTION:

The #1-selling penetrant since 1957, PB Blaster quickly busts loose rusted or frozen parts caused by rust and corrosion. It also contains a non-evaporating lubricant that saves time and equipment and protects against further rust and corrosion.

B'LAST ON:

Nuts & bolts, corroded pipe threads, ANYTHING that is rusted or corroded, stuck or frozen.

DIRECTIONS FOR USE:

Shake the can well before using. Completely saturate the troubled area and don't hold back! If you think it's not enough, go ahead, give it another spray. For heavily corroded components, go ahead, give it another spray. Let the product sit for a few minutes (tap troubled area lightly to hasten results). It is suggested that the can be at room temperature when dispensing.

SAFETY:

DANGER: CONTENTS UNDER PRESSURE: Flammable aerosol. Contains gas under pressure; may explode if heated. May be fatal if swallowed and enters airways. Keep away from heat/sparks/open flames/hot surfaces.

Exposure Symptoms:

Inhalation: May cause respiratory tract irritation.
